

Representative Cindy Golding

House District 83

Under the Golden Dome **Summer Edition #4**

Hi friends!

*Much has happened in the weeks since ending the session *Sine Die* on May 4th. The session is over, but the work against the woke left continues. Thank you for your support!*

There were 2 notable events – The Special Legislative Session and a multi-State meeting regarding The CO2 pipeline.

*The media has covered the **Special Session of the 90th General Assembly** with the same approach we have come to expect – partial truth, misrepresentation, and hyperbole. The “hypothetical” Heartbeat law (as interpreted by Justice Waterman) was revisited and passed in the Special Session with a greater margin than when first passed in 2018. Between the Supreme Court decision on June 16, 2023 and the Special Session on July 11, 2023, I heard from constituents, physicians, OB-GYN groups, and lobbyists both for and against HF732.*

*Some things to know about the **Heartbeat Bill** – [HF732](#)*

- 1) It does NOT have a firm 6-week deadline for an abortion. Detection of a fetal heartbeat may vary greatly for each pregnancy.*
- 2) It does NOT stop a physician from terminating a pregnancy if the mother’s life is at risk.*
- 3) It DOES make allowance for **reported** victims of incest and rape for up to 20 weeks.*
- 4) It DOES make allowance for medical emergency procedures beyond 20 weeks in cases of miscarriage and other fetal or maternal issues.*
- 5) It DOES respect the life of both the mother and the child.*
- 6) The bill was signed by the Governor on July 14.*
- 7) On July 17 a temporary injunction was placed by Polk Co. District Court Judge Joseph Seidlin.*
- 8) Stay tuned...the battle for the soul of our nation continues with each skirmish.*

Multi-State Coalition to Protect Private Property Rights (CO2 Pipeline coalition)

On July 8th I was honored to emcee the event with legislators from 3 states: Iowa, North Dakota, and South Dakota.

- We heard horror stories of armed “surveyors” invading private property – not just the farm fields, but homes, shops, and outbuildings.*
- “Surveyors” were filmed driving across fields, through newly planted trees, crops, and gardens with heavy equipment, digging 90’ deep “survey” holes.*
- There were stories of threats and intimidation from Summit Carbon Solutions and others.*
- Insurance companies are refusing to insure landowners with these easements (voluntary or involuntary).*

- Our investigators found foreign investors involved in this travesty of unconstitutional action.
- The “thread of influence” research uncovered connections that cut across state lines, all political lines, and multiple layers of government.
- I continue to believe that this is not about climate change or protecting ethanol; instead, it is about transferring your tax dollars to people who couldn’t care less about Iowa or Iowans.

For Rural LINN COUNTY and all our small towns:

- The “Kill Zone” (death within one minute) was disclosed in North Dakota to be approximately 750’ from a ruptured pipeline smaller than those proposed in Iowa. Many of our small towns will be within the Kill Zone of the ADM-Wolf pipeline – Ely, Mt. Vernon, & Lisbon, and our rural neighbors along the route.
- The ADM-Wolf pipeline will be a serious risk to our communities with or without Eminent Domain!
- If you are interested, there is another informational [event on July 31](#) (click link or see below)

I have been asked “What can I do?” YOU have a unique opportunity to influence the future of our Country. As First in the Nation, several Presidential candidates are making their way across Iowa. Regardless of your political affiliation or personal preferences, go to their events. Ask the hard questions. Decide for yourself without the filter of the biased Media.

Make your voice heard!!
Ask the tough questions (I do). Their answers will surprise you.

Ambassador Nikki Haley

Perry Johnson

Gov. Asa Hutchinson

Governor Ron DeSantis

Vivek Ramaswamy

President Trump

A final note: On July 19, my mother left us to join our Heavenly Father. She was a true patriot, a WWII USO volunteer, a business owner, grandmother of 30 and great-grandmother of 59. She embraced life with a gusto, saw obstacles as opportunities, and taught all of us to look for the best in everyone we meet. She will be missed but her legacy will live on through all those she touched.
